## The Teutonic Name-System applied to the FAMILY NAMES of FRANCE, ENGLAND, and GERMANY. By ROBERT FERGUSON, Author of "The River-Names of Europe," "Swiss Men and Swiss Mountains," &c.

"His object is to bring into connexion the family-names of France, England, and Germany, so far as the German element is concerned, as members of one common family, and to arrange them on a definite system in accordance with the nomenclature of the old Germans.... All this he has worked out with independent judgment, and it must be admitted with much truth; he has, moreover, made some new suggestions which commend themselves for the explanation of French and English names."—Dr. Dierich, in the *Jahrbuch für Romanische und Englische Literatur*.

## History of Assurbanipal, translated from CUNEIFORM INSCRIPTIONS. By GEORGE SMITH, of the Department of Oriental Antiquities, British Museum.

"A history of Assurbanipal, King of Assyria, B.C. 668 to 626. The cuneiform texts are given of all the historical inscriptions of the reign of Assurbanipal, the most important in Assyrian history. Each text is accompanied by an interlinear translation (in English), and the whole book is divided into sections, according to the various campaigns of the king. The long inscription on the decagon cylinder of Assurbanipal, now in the British Museum, is taken as the standard text. This document alone contains 1260 lines of cuneiform writing. The annals of Assurbanipal mention the conquest of Egypt by the Assyrians under Esarhaddon and Assurbanipal; in this part we have the Assyrian account of Tirkakah, Necho I., and Psammictus I. In the affairs of Asia-Minor, Gyges and Ardys, kings of Lydia, come in; and there are numerous wars and other events, including the conquests of Babylonia, Susiana, and Arabia."—Academy.

## The Agamemnon of Æschylus.

Greek Text. Revised and Translation. By JOHN F. DAVIES, B.A., T.C.D., First Classical Master in Kingstown School, Ireland.

In this Edition the discoveries made by Karsten, Heimsoeth, Weil, Enger, and many other Continental Scholars, are for the first time placed before the English Student, and further corrections are proposed in short Latin notes. The conjectures of Hermann and his predecessors are either simply recorded and adopted as fully proved, or are altogether omitted. An attempt is made to reproduce the metres of the text in a literal line-for-line English translation. Passages of doubtful or hitherto unexplained meaning are discussed in an entirely new and original Commentary.
